

A REPORT

Centenary College  
Graduates

---

1921 - 1931

*What and Where*

Centenary College of Louisiana  
SHREVEPORT, LOUISIANA

## NOTE

The following is a report of Professor W. C. Gleason, of the Department of Education, on the name, number, and present residence and occupation of the students graduating from Centenary College over a period of ten years, 1921-1931.

It is believed by the College that this report justifies the investments made by the friends of education, when the graduates alone are considered. It must be understood, however, that many students who pursued the pre-medical, pre-law, and other specialized courses, who transferred to other institutions to continue their work, are as great evidence of the character of work done by the Faculty and the success achieved by the students as that of those completing the full four-year course at the College.
